AB tip

Always looking for
the dustpan? Choose a
broom that lets you
clip it right onto the
broom handle.

O-CEDAR ANGLER BROOM

TESTER Judith Nolte

WHAT IT IS Your basic broom

IT WORKS! I love the bristles—they're so tightly packed that the broom works very efficiently; the edge of the dustpan is flush with the ground, so debris goes in with one sweep.

THE CAVEAT The knob from which you hang the broom isn't stationary, so it moved in my hand. And since I'm tall, that's right where I grip the broom.

THE DETAILS \$6-\$10
